ABOUT ME

Business Intelligence (BI) Analyst | Data Analyst

Detail-oriented professional with 3+ years in sales and account management, now transitioning into data and business analytics through hands-on certification and applied projects. Strong foundation in Excel/Google Sheets, SQL, and Power BI, gained through a hands-on data analyst certification program. Experienced in reading commercial data, building reports, and translating numbers into decisions, now applying the same rigor to structured data analysis, dashboarding, and business intelligence work.

SKILLS

Data Analysis & Visualization

Excel/Google Sheets (pivot tables, lookups, formulas) / Data Cleaning, Data Warehousing, Data Modeling / SQL (queries, joins, aggregation) / Power BI

Reporting

Dashboard Building / KPI Tracking / Sales & Performance Reporting / Data Cleaning

Business Tools

Microsoft Office Suite / Google Workspace / CRM Platforms

Core Analytical Strengths

Problem-solving / Process Improvement / Stakeholder Communication / Attention to Detail

PROJECTS

AI-Powered Sales Analytics Dashboard - Power BI

- Built a sales dashboard with KPI cards for Total Sales, Average Sale, Highest Sale, and Total Transactions, plus breakdowns by region and category.
- Applied Anomaly Detection to flag unusual spikes in the sales trend and Key Influencers to identify drivers of sales increases.
- Used a Decomposition Tree to explore contributing factors by region and category, and Smart Narrative to auto-generate a written summary of key findings.

Movie Rental Analysis - SQL

- Wrote SQL queries joining customer, rental, inventory, and film tables from a movie rental database.
- Built a customer rental history query showing rentals, film titles, and rental dates.
- Practiced multi-table joins and relational data modeling for analytics use cases.

Employee Analytics Dashboard - Excel

- Built an HR dashboard analyzing headcount, total and average salary, and average tenure across 1,233 employees.
- Broke down workforce by gender, education level, job satisfaction, and work-life balance; visualized monthly salary trends and salary spread by tenure for Full-Time vs. Contractor staff and by working years across gender.
- Added slicers for Gender, Education, Department, Business Travel, and Employment Type for instant segment-level filtering.

WORK EXPERIENCE

 **Sahni International Fze.** – Dubai, United Arab Emirates

Sales Executive

[01/01/2023 – Current]

- Tracked and analyzed pricing and sales data across 30 regular customer accounts to support negotiations, contributing to margin-positive deal terms.
- Built recurring Excel-based performance reports and dashboards to track pipeline health across 30 regular customer accounts, surfacing upsell opportunities for the sales team.
- Consolidated and analyzed sales and customer data across 3 product lines — tyre, tube, and battery — to guide expansion strategy and support company growth.
- Designed spreadsheet-based tracking models across a 30-account customer base to measure profitability and pipeline conversion rates, enabling data-driven forecasting.

 **Daraz Bangladesh Ltd.** – Dhaka, Bangladesh

Junior Key Account Executive

[09/08/2020 – 06/12/2022]

- Managed a portfolio of 76 key accounts within assigned sales territories, driving growth through strategic and tactical execution.
- Prepared and analyzed sales performance reports, presenting key metrics to leadership to support strategic decision-making.
- Coordinated sales, promotional activity, and warehouse stock levels for 76 high-value seller accounts to ensure operational continuity and consistent product availability.
- Built and sustained long-term client partnerships by consistently demonstrating value, contributing to high client satisfaction.

 **Daraz Bangladesh Ltd.** – Dhaka, Bangladesh

Executive, Issue Resolution

[01/11/2018 – 25/07/2020]

- Managed and resolved approximately 50 customer complaints daily, maintaining service quality standards.
- Coordinated with around 10 internal teams using issue-tracking data to speed up resolution times across daily complaint volumes.
- Conducted around 30 outbound follow-up calls daily to ensure full resolution of customer issues.
